Background

The Coalition for Disaster Resilient Infrastructure (CDRI) is a multi-stakeholder global partnership of national governments, UN agencies & programmes, multilateral development banks & financing mechanisms, the private sector and academic & research institutions. It aims to address the challenges of building resilience into infrastructure systems and infrastructural development. The vision, mission, goal, and objectives of the CDRI are explicitly linked to the post-2015 development agendas. The Coalition will also contribute to the resilience of global infrastructure systems in an increasingly interconnected world. The outcome of such collaboration would be aimed at building 'resilient economies and resilient people' through cross-sector commitments at all levels towards adaptation and resilience with concrete outcomes that will bring resilience action to global scale.

The CDRI aims to support countries to upgrade their systems for ensuring disaster and climate resilience of existing and future infrastructure. It seeks to rapidly expand the development of and retrofit resilient infrastructure to respond to the SDGs objectives of expanding universal access to basic services, enabling prosperity and decent work. CDRI envisions enabling measurable reduction in infrastructure losses from disasters including extreme climate events.

The Government of India has established a Society in New Delhi to act as the Secretariat of CDRI. The Secretariat functions under the direction of the international Governing Council and implements the programs of CDRI. **This position is being advertised for Short Term Consultant (STC) for Fixed Term Contract of three (3) months.**
